

**Vivian A. Carr**  
(M1973 F1975)

Vivian is a current Director of the Radio Club of America.

Vivian helped to build the Club to its highest membership levels in history. She is currently the Fellows Chair, and Awards Acting Chair, a member of the Executive Committee and of the current Board of Directors of the Radio Club.

She was Chairman of the IEEE New York Section, is the past President of the IEEE Engineering Management Society ('86 & '87) and Treasurer ('98-'05). She is also a member of the IEEE Communications Society.

Fred Link invited her to become the first female member of the Radio Club. Through the years, he put her to work as the Membership Chairman, a post she held for 20 years, finally resigning in 1996.

Vivian started her engineering career with the Bell Telephone Labs in the Switching Department, the Systems Development Department and was transferred to the (original) AT&T Company in lower Manhattan. She started in the Transmission Department, and worked in Government Communications, Systems Planning, Marketing, Executive and Tariffs & Costs Departments. She retired as a District Manager.

## **POSITION STATEMENT**

My years of experience in a leadership role with tax exempt organizations and my dedication to service make me uniquely qualified to run for the position of Vice President of the Radio Club of America.

Through out the years I have worked diligently to help support and grow the Club, not only as Chair of the Membership Committee but also as a Director and member of the Executive Committee. Serving in those leadership positions has provided me with the opportunity to learn first hand what it will take to guide and direct our Club through the 21<sup>st</sup> Century. If elected, I will continue to work closely with all of the Club's elected officials to help grow our membership, expand our scholarship program and secure a financially sound future. Because of her vast job experience, exposure and leadership roles in other tax exempt organizations, she feels she can continue to serve and provide direction to the Board if elected.
