

Bruce R. McIntyre

(M94 F98)

Bruce has been in the wireless industry for nearly 40 years. He started his career as an avionics technician in the U.S. Air Force during the Viet Nam War.

After the Air Force, Bruce spent nearly 14 years with Motorola as a Service Manager, Account Executive and with Motorola's Computer Division.

In 1985, he left Motorola and Joined Tower Technology Corp as VP and General Manager. In the tower industry, he was one of the founding members of the Site Owners and Managers Association. He served on the Board of Directors of PCIA and in 2004 received a pioneer award from PCIA.

Since 1999, Bruce has consulted to the Wireless industry and has done work for Hughes Network Services, TerreStar Networks, Qualcomm/MediaFlo, Richland Towers, Pinnacle Towers, Hamilton County, IN. Sheriff's Dept. and others.

Bruce has always been active in the Wireless Industry and besides being a Fellow and on the Board of Directors of RCA, he is also a member and past Chapter President of AFCEA (Armed Forces Communications and Electronics Association), SBE, APCO and is an advisor to AGL Magazine.

Bruce has a BA degree from Eckerd College, is married with two grown children and one grand son.

Position Statement

As a Fellow of the Radio Club of America and a Member of the Board of Directors for 5 years, I am dedicated to the advancement and growth of the Radio Club as an organization of wireless professionals. I am currently the Chair of the Web Site Committee and I sit on the Finance Committee and the Centennial Committee.

As the Club moves into it's second century, the Board of Directors must further and promote the goals and objectives of this Club and cannot allow a few members distract the Board from those objectives to pursue their own agendas.

Membership is and should be a high priority for every member of the Club if we are to survive another 100 years. The wireless industry has and is changing rapidly with new players in it such as Google, Microsoft, Apple and Yahoo. We need to work to bring in wireless professionals from these companies as members.

Scholarships are also a large part of the Clubs objectives. We need to increase the Scholarship funds so that we can be more active in producing the next generation of Wireless Professionals.

Serving on the Board of Directors requires a dedication of time and money to carry on Club business and to attend Board meetings. I have made that commitment for the last 5 years and have never missed a meeting.

If I am re-elected, I will continue to give the Club the dedication that is required to completely fulfill the requirements of this position.
