Position Statement

I am very pleased and honored to be a nominee for Director of the Club. As we embark upon the Club's second century we must stand by the traditions which made the Club a great organization while improving our programs to increase the participation and interest of the members.

The Board should support the ongoing efforts of the Club to preserve the history of radio and television and the honor the men and women who have made it. Our highly regarded publications are a valuable resource to historians and must be maintained.

We must seek new funding sources so that we can maintain and expand our outstanding scholarship programs.

As a member of the Board I hope to assist with the current efforts to improve our presence at conventions and trade shows, both as a vehicle for recruiting new members and for increased contact with the current membership. I was pleased to assist in a small way with the booth at the Dayton Hamvention this year.

Finally, I hope to continue the tradition of the outstanding annual meetings and technical programs in November of each year.
